

The Grizzled

Game by
Fabien Riffaud
and Juan Rodríguez

Art by
Tignous

August 2nd 1914 - In the village's square, the group of inseparable friends contemplate, stunned, the General Mobilization order plastered to the town hall. For many weeks now, the papers had become worrisome, but the brutality of the announcement surprises everyone. Without having any idea of the hell in which they'll be plunged, they promise each other that they'll survive to come back all together no matter what happens. Unfortunately, the reality they'll have to face will be much worse than their deepest fears.

The Grizzled

A cooperative game for 2 to 5 players, with a length of roughly 30 minutes

Intention note

At the same level as literature and cinema, games are a cultural media which is undeniably participative.

There are no subjects it can't broach, though some are more delicate than others. That of the life of the Grizzled is one of those.

Guided by the deepest respect that the suffering endured by these men has inspired in us, we've worked in designing and tweaking this game with this constant concern.

In this collective insanity we've chosen to focus on the individual, with his preoccupations and his daily fears.

The only escape for these men is to test their solidarity, their brotherhood, and their ability to help each other in order to save one another, each and all together.

Without ever touching on the warlike aspect, "The Grizzled" offers each player to feel some of the difficulties suffered by the soldiers of the trenches. Thus the tension around the table will often be intense, as will the emotions.

The path to victory may seem difficult, but don't get discouraged - persist and get through the Great War!

Homage

Some of the characters in this game were real people; some are the ancestors of people who worked on this game. "The Grizzled" is an homage to all the men who lived through this tragic period.

Contents

6 Grizzled cards
Good Luck Charm Side

59 Trial cards

16 Support tiles

5 Speech tokens

1 Mission Leader token

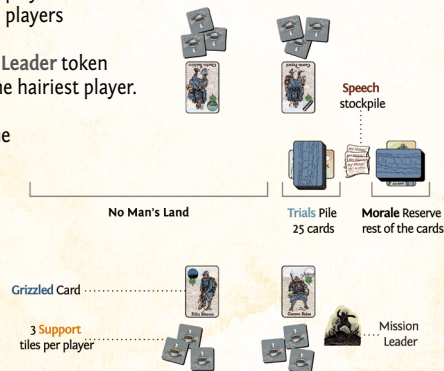

1 Game Aid

1 Peace card
1 Monument card

Setup

- Each player chooses a Grizzled card, Good Luck Charm side up.
- Each gets 3 Support tiles:
 - 1 tile
 - 1 tile
 - 1 tile randomly drawn from the rest.With 2 or 3 players, the << and >> tiles are not used.
- 25 cards are placed face down on top of the Peace card and form the Trials pile; the other 34 cards are placed face down on the Monument card, and make up the Reserve of Morale for the group.
- Speech tokens are placed between the card piles, depending on the number of players:
 - 5 tokens at 2 or 3 players
 - 4 tokens at 4 players
 - 3 tokens at 5 players
- The Mission Leader token is given to the hairiest player.
- And the game can begin!

Objective of the Game

Through a series of successive **Missions** the players will attempt to empty the **Trials** pile and make the **Peace** card visible.

The players win the game when the **Peace** card is visible and they have no cards left in hand.

At the end of each **Mission**, the **Morale** drops and cards are transferred from the **Morale Reserve** to the **Trials** pile. The players lose the game as soon as the **Monument** card becomes visible.

Overview of a Mission

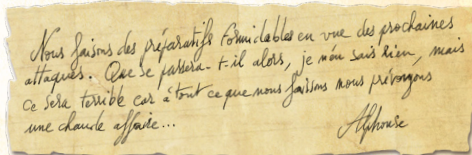

A **Mission** is composed of 4 steps.

1 Preparation

Intensity

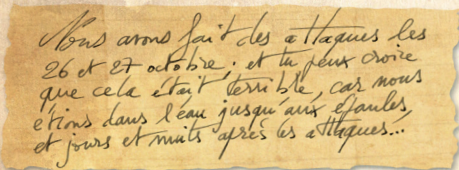

The **Mission Leader** evaluates the risks to take and chooses the **Intensity** of the **Mission**, which determines the **number of cards each player will be dealt**. The cards are dealt one at a time, starting with the **Mission Leader** himself. The cards are taken from the **Trials** pile. The intensity starts at a minimum of 1. If the

Trials pile runs out when dealing cards, simply stop dealing further cards. Some players may have less cards in hand than others.

The Flower on the Gun

The intensity of the game's first **Mission** is always a minimum of 3 cards.

A soldier from the 133rd ("La Gauloise")

2 The Mission

The players attempt to get rid of the **Trial** cards they have in their hand. The **Threats** will be placed in the middle of the table, in **No Man's Land** (see illustration), while the **Hard Knocks** will be assigned to players. For the **Mission** to continue, there must never be 3 identical active **Threats** at the same time.

The 6 types of Threats

Night		Snow	
Rain		Mask	
Shell		Whistle*	

*The Whistle represents the beginning of an assault.

This player played a **Support** and has withdrawn from the mission

No Man's Land

Hard Knock cards assigned to the player

Used Good Luck Charm

■ The Actions

Starting with the **Mission Leader**, the players play in turn, going clockwise, for as long as the **Mission** continues (see End of the **Mission**). On their turn, if they haven't withdrawn yet, each player chooses a single Action from among the following:

	<p>Play a Trials card from their hand</p> <p>If the card is a Threat it is added to No Man's Land, in the middle of the table. If it's a Hard Knock, it is assigned to the player and immediately takes effect.</p>
	<p>Use a Good Luck Charm</p> <p>The player discards one of the cards from No Man's Land bearing the same type of Threat as their Good Luck Charm. The player's Grizzled card is then flipped over. To be able to reuse their Good Luck Charm, they'll have to recover it (see Support section).</p>
	<p>Make a Speech</p> <p>If a player has a Speech token, it allows them to encourage their comrades and protect them from one of the 6 Threats. The active player chooses a Threat and announces it to the other players. All players can then discard a single card from their hand which contains that Threat. If a player has more than one of those Threats, he can choose only one of them. Players who have already withdrawn do not benefit from the Speech. The Speech token is then removed from the game.</p>
	<p>Withdraw and play a Support tile</p> <p>By withdrawing, the player chooses to no longer take part in the Mission and will thus no longer be able to take actions. They must then choose to which player they will give Support. To do this, they secretly choose one of their Support tiles (if any remain) which they place face-down on their own Grizzled card. All of the played Support tiles will be revealed at the end of the Mission, when all players have withdrawn.</p> <p>While a player is withdrawn, all Hard Knocks they possess have no effect for the current mission. The withdrawn player keeps the cards they still have in hand for the next round.</p> <p>A player who no longer has any Support tiles can still withdraw. They simply won't play a Support tile. If the player still has cards in hand, they can place them face-down on their Grizzled card to represent their withdrawal.</p>

■ Trap Cards

When a player plays a **Menace** card from their hand which has a **Trap** symbol, they must draw another card from the **Trials** pile AND immediately play it. If a new **Trap** is revealed, it will be ignored. If it's a **Hard Knock**, the player places it next to their **Grizzled** card.

2 types of **Threats**
Night and Shell

Symbol
Trap

■ End of the Mission

The **Mission** can end in one of two ways:

- either all of the players have withdrawn, in which case the **Mission** is then successful. The cards in **No Man's Land** are discarded.
- or 3 identical **Threats** are present in **No Man's Land**, including the **Phobias** and **Traumas** of the non-withdrawn players, in which case the **Mission** is a failure. The **No Man's Land's** cards are shuffled into the **Trials** pile and will have to be faced again.

In both of these cases, the unplayed cards are kept in hand, and the **Hard Knocks** remain assigned to each **Grizzled**. Play then proceeds to **Support**.

The **Mission**
can continue

Failure
3 Shells

Failure
3 Snow

3/4 Support

Once the **Mission** is over, the players reveal the **Support** tiles they played on their **Grizzled** cards when they withdrew, and give it to the chosen player.

... **Support** given to the 2nd player to the left

Support given to the 1st player to the right

If one player has received **more Support than any others**, that player benefits from the help of the group and can then:

- get rid of 2 **Hard Knocks** cards affecting their character

or

- recover their **Good Luck Charm**

In case of a tie, the effects of each cancel each other out and no one gets support. Players keep the **Support** tiles they have received.

Dans le fond de la tranchée et sous le terrain, on creuse de petites caves où un homme peut tenir caché, c'est pour se garantir des éclats d'obus.
Adolphe Vogel

If the mission was a failure
Only the tiles from players who have already withdrawn are taken into account. In this case, if a player received more **Support** than any of the others, he may only:
- get rid of a single **Hard Knock** card.

Defeat Condition

After the resolution of **Support**, a player with **4 or more Hard Knocks** causes the group to fail and immediately brings about the end of the game.

Victory Condition

The Armistice is signed when the **Trials** pile is exhausted, the **Peace** card is visible and the players no longer have any cards in hand, they've made it through the Great War together and win the game.

Bravo!

4/4 Morale Drop

As the war is still not over, the group's Morale drops:

players transfer, from the Morale Reserve to the **Trials** pile, as many cards as the total number of cards remaining in the hands of the players, with a minimum of 3 cards.

Defeat Condition

As soon as the group's Morale Reserve is exhausted, the Monument card is revealed, and the game is lost!

If the players have made it to the Morale Drop, the Mission Leader token moves on to the next player. The former Leader gets a **Speech** token, if any still remain.

A new round begins...

...and the war goes on!

Il était comme nous, des pauvres types qui se faisaient casser la gueule pour rien...
Lem Wal

Card Breakdown

- 39 **Trials** cards: each of the 6 types of **Threats** is represented in it 14 times; 9 cards contain a **Trap**
- 19 **Hard Knock** cards
- 1 **Merry Christmas** card

🌀 Rookie Game 🌀

During your first few games we strongly recommend you ignore the **Traps** from the **Threat** cards.

🌀 Normal Game 🌀

Once you've mastered the game's rules, you can apply the **Traps** from **Threat** cards when they appear.

🌀 Veteran Game 🌀

For expert players, the **Trials** pile starts at 30 cards.

Be brave!

The excerpts from Grizzled letters inset throughout the rules are taken from "Paroles de Poilus", published by **Radio France Editions**

🌀 2 Player Game 🌀

A virtual player is added: the Chaplain, a **Grizzled** card represents him. He gets 3 **Support** tiles like the other 2 players, and only takes part in the **Support**, so he never has a **Trial** card and can't be **Mission Leader**.

The **Trials** pile begins at 20 cards.

The used **Speech** tokens are returned to the stockpile instead of being removed from the game.

The game plays out normally, except during the Preparation, in which the **Support** played by the **Chaplain** is randomly drawn and placed on his **Grizzled** card. He thus withdraws before going on the Mission.

The **Supports** played are given to the selected **Grizzled**. If the **Chaplain** has the majority, he keeps the **Supports**, but nothing else happens. For more ambitious challenges, you can, after each victory, increase the initial size of the **Trials** pile by 2 cards. When you reach 30 cards, the victory will grant you the status of Veteran!

🌀 Thanks 🌀

A great big thanks to all the players who had the patience to test the game again and again, specifically Catherine Riffud, Corinne Blis, Muriel Lemay, Jérémy Jallet for his constant suggestions, Didier Jacobée for his confidence, Paul Guignard for his wise advice, Benoît Houivet for his minutiae, Patrick Bard for his support and his reactions, the members of the Touraine Maison des Jeux, François, Super Bony, the Poitiers Mipeul, Ludo Ergo Sum, Boris, Simon, Nicolas, Eva, Franck, as well as all those we've forgotten in this too short list.

🌀 Clarifications 🌀

- Some information in The Grizzled can't be shared among players. The contents of the cards in each player's hand cannot be revealed. Players should also keep secret the Support tile they choose when withdrawing.
- The players can, if they so desire, count the number of cards remaining in the **Trials** pile and in the **Morale Reserve**.
- When a card is discarded, it is removed from the game for the remainder of the game.
- When the Trials pile is empty (the dove from the **Peace** card is visible), any card which should be drawn from it is ignored (**Trap**, effect from a **Hard Knock**, etc.).
- In case of conflict between **Hard Knocks**:
 - on the same player, the priority goes to the oldest one.
 - on different players, those from the player currently playing are applied first.
- **Clumsy Hard Knock**: if a **Trap** is drawn, it doesn't get activated.
- **Mute Hard Knock**: the player can't play a **Speech** token but can still play a **Support**.
- The effect of a **Hard Knock** can force a player to withdraw, preventing them from choosing other actions.

Speech

Hard Knocks

- A **Speech** has no effect on a withdrawn player.
- The **Speeches** can allow players to discard from their hand a **Trauma** or a **Phobia** with the corresponding **Threat**.
- The **Speech** tokens all have the same effect. The text is only used as inspiration, for example: "My friends, don't fear the shells, as according to our intelligence, no artillery fire will take place today".
- The **Trauma**, **Phobia**, and **Fragile** cards assigned to a withdrawn player no longer impact the current **Mission**.
- When a player no longer has any cards in hand, they can still withdraw, ignoring any active **Hard Knocks** that would keep them from withdrawing.
